JAIDEV CASTALLOYS PVT. LTD.

Casting Future

- Latest Production Machinery
- Growth Focused Approach
- Quality Assurance System
- Ideal Location for Exports
- Fast Development of New Products
- Competitive Global Pricing Structure
- Customer's Need Based Servicing
- Performance Monitoring System (PMS)
- Technically Competent & Committed Man- Power

**We know the
power of Quality**

An ISO 9001:2015 Certified

Introduction

Jaidev Castalloys is a Private Ltd company Registered under Indian Company Act 1956. The company was established during the year 2001 with a view to cater to the needs of gray & ductile iron castings as such and machined as well. The company is owned by persons having long business experience and technical academic record.

Jaidev Castalloys has been accredited ISO 9001-2015 since the year 2007 for the manufacture of CI & SGI Castings. The State of the art metallurgical laboratory helps the company to manufacture products exactly according to the metallurgical specifications of its buyers under stringent quality control.

The Company has 10000 MT. annual installed capacity of gray and ductile iron. Casting is done in an environment friendly way with the help of a high pressure moulding machine. At Jaidev Castalloys a dedicated team of technical advisors is permanently at hand, ready to fulfill the needs of its customers.

In house state of the art pattern development facility ensures constant product development and increases the range of products.

The in house machining facility has the capability to give fine surface to the products as per expectations of its buyers.

Besides its interstate sales, the company is associated with a manufacturer exporter to supply industrial product for incognito export .

Jaidev Castalloys produces castings of different materials: -

1. Gray Iron:- The gray iron manufactured by the company are as per ISO 185/B 51452/ASTMA-48 and other equivalent standards of Grey Iron.
2. Ductile Iron:- Ductile Iron castings manufactured by the company confirms to ASTMA536, DIN and other equivalent standards.
3. Tool Steel:- Tool Steel (D2, D3) castings are also manufactured by the company.

Quality Policy

" We are committed to produce quality product consistently on schedule to the best satisfaction of all our customers. We also strive for continual improvement in quality management system by establishing and achieving quality objectives aimed at overall improvement in our activities for enhanced customer satisfaction through environment friendly process.

Plant & Facilities

MACHINERY

Induction Furnace (500 kg)-4 Nos.
High Pressure Moulding Machine
Of Size(500x600x450) , (500x400x350) & (400x300x120)
Core Shooter (Cold Box, Shell Core)
Core Oven
Heat Treatment Furnace (Annealing,
Hardening & tempering)
Hanger / Tumb Blast Shot Blasting Machines
CNC Machines
VMC Machines
Grinder Machines
Multiple Spindle Drilling Machine
Lathe Machines
Milling Machines
Taping Machines
Galvanizing Furnace
Air Compressor
Generator Set
LT & HT Transformer
Hoist Crane
Fitting & Assembly Tooling
Welding Transformer
Tool Post Grinders
Gas Cutting Equipment

DEVELOPMENT FACILITIES

Latest CAD/CAM Software
PowerMILL Software
In-house Pattern Making Facility
Simulation Software: Quick Cast

SAND TESTING EQUIPMENTS:

MUFFLE FURNACE
DISTILLED WATER PLANT
GREEN COMPRESSION STRENGTH MACHINE
RAPID MOISTURE TESTER
AUTO SAND WASHER
COMPACTIBILITY TESTER
SIEVE SHAKER
HOT PLATE
PERMEABILITY TESTER
MOULDABILITY TESTER

OTHER TESTING FACILITIES

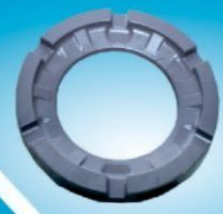

Spectrometer
Measuring Gauges
Ultrasonic testing Machine
Slip Gauges
Rockwell Hardness Tester
Brinell Hardness Tester
Universal Testing Machine
Metallurgical Microscope
Coating Thickness Gauge
Digital Thermocouple
Ametek Infrared Pyrometer

Our
Products

Automotive
JCB
Tractor
Commercial Vehicals
Agriculture
Insulator
